Cachito Vallés

Cachito Vallés (Seville, 1986) creates new media installations that reflect on technology beyond its functionality. Through the creation of specific software, he formalizes a language that conveys rhythms through which he investigates and represents human states, doing so through pieces full of life that involve a combination of light, sound, and movement.

Represented by Luis Adelantado Gallery since 2019, his work has been exhibited recently at the Carmen Thyssen Museum in Malaga, the C3A Contemporary Creation Center in Córdoba, the Centre Pompidou in Malaga, and the Andalusian Center of Contemporary Art.

His work is part of private collections in Italy, Spain, and Switzerland, as well as public collections such as the CAAC in Seville, the CAC in Malaga, the DKV Collection, and the FCDP Collection of the Canary Islands, among others.
